INSTALLATION

ALPHAPLATRE has been designing and supplying equipment for the plaster industry for over 40 years.

ALPHAPLATRE assists you with your plaster block production line projects. Our expertise enables us to design and manufacture complete plaster block production lines:

- Preparation and dosage of solid/liquid additives
- Mixing
- Shaping
- Wet and dry plaster blocks handling
- Drying
- Palletisation

## ADVANTAGES OF ALPHAPLATRE SOLUTION

- Large range of moulding heads enabling the production of blocks of: **50 / 60 / 70 / 80 / 100 mm**
- Interchangeable moulding head to facilitate production of various blocks using the **same moulding station and the same production line**
- Possibility to produce **hollow blocks**
- **Energy consumption** optimisation through the development of various innovating drying processes
- Production parameters **monitoring**
- Production capacity from **165,000 m<sup>2</sup>/year to 546,000 m<sup>2</sup>/year**

## WHY CHOOSE ALPHAPLATRE?

Complete assistance from project design to after-sale service following start-up

Manufacturing of the main equipment in our workshops

Network of European sub-contractors specialised in the plaster industry

Technology expertise
